

Conference Information

IPD08 Conference for Librarians

17 November 2008

Wellington College, Berkshire

Cost: £120

This year we will be looking to build on the success of IPD's first ever Conference for Librarians held at The King's School, Worcester in January 2008. This year's event, hosted by Wellington College, will take as its theme '**Virtual Learning Environments**' and will once again blend presentations with opportunities to share good practice through discussion groups. There will also be an opportunity to explore Wellington's very impressive Library facilities.

IPD09 Conference for Curriculum Leaders (Senior)

13-15 November 2008

Canary Wharf

Cost: £525

The 2008-09 Conference for Senior School Curriculum Leaders moves to London after last year's very popular event held in Edinburgh. The programme will continue to combine stimulating presentations from a range of speakers with opportunities for discussion in smaller groups. We will also be continuing with last year's highly successful 'sharing of good practice' sessions, where a number of colleagues will describe innovative practices they have introduced in their schools.

IPD10 HMC Junior Heads Conference

12 November 2008

Bromsgrove School

Cost: £100

We are returning to Bromsgrove School once again in 2008-09, where a number of very successful conferences have been held over the years. This year's programme will take as its theme: "**A Curriculum for The Future**". Our keynote speaker in the morning will be Mike Waters, Director of Curriculum at QCA. The afternoon session will focus on key issues for Junior School Heads and there will be plenty of opportunity to spend time with IPD's ICT partners, **Infacom**, **Steljes** and **iSAMS**, who will be demonstrating a range of new technology to support learning and teaching.
